Re: Permit #19-85 (B) Amendment No. Ten  
Scott's Use of the Public Pavilion at Jack London Square  
2006 Report

Dear Ms. Klein and Ms. Gaut:

A schedule of Scott's use of the Public Pavilion in 2006, an analysis of their use vis-à-vis your guidelines and a worksheet are attached for your review and comment.

Scott's exceeded their annual use by 5%, utilizing the Public Pavilion 79 days vs. the allowable 73 days. This left 286 days for public use vs. the required 292 days.

They also exceeded the number of weekend days/nights for private use of the Pavilion on average per month from May through October. The guideline is 33%; they utilized it 50% of the time.

They were in compliance with the minimum number of weekend days/nights (3) for public use in all 12 months.

Regarding the number of weekend days/nights to be made available for use of the Pavilion on average per month from November through April, I believe there may be a mathematical error on Exhibit A. The percentage stated is 40% however it may need to be adjusted to 44% if I understand the calculation correctly. You are allowing five weekend days/nights for public use and four weekend days/nights for private use for a total of nine days. Four days of private use would represent 44% ( $4 \div 9 = 44\%$ ). Whether the guideline stays at 40% or is amended to 44%, Scott's utilized the Pavilion 51% of the time.

An overarching issue, however, continues to be the number of unscheduled/unreported events that occur year after year. In 2006, Scott's submitted requests to use the Public Pavilion for 52 days with no more than two consecutive private event days at any time. They used 99 days – or a 47 day discrepancy – from their original submittals.

Please let me know if you have questions or wish further discussion.

Sincerely,

Rhonda Hirata  
Director of Marketing and  
External Communications
